ABOUT THE DESIGNER

Klaro Industrial Design (K.I.D)

Klaro Industrial Design (K.I.D) is a Sydney based industrial design studio creating commercial furniture for workplace, hospitality, education and commercial interiors. The studio develops furniture for environments where durability, proportion, material choice and long term use matter.

K.I.D works with a network of Australian makers across New South Wales and Western Australia, applying a slow fashion approach to commercial interiors to reduce landfill and support local manufacturing. Material selection favours recyclable and biodegradable options over composites.

SUPPLIED AND INSTALLED BY

Binowee Group

Binowee Group supplies, delivers and installs commercial furniture across Australia. We take the K.I.D range from specification through to a completed and handed over floor, coordinating with builders, designers and client teams on program, access and sequencing.

Binowee Group is majority Indigenous owned. Purchases through Binowee Group can count toward Indigenous procurement targets under the Commonwealth Indigenous Procurement Policy and the NSW Aboriginal Procurement Policy.

- Finish and sample coordination during design development
- Setout checked against the approved furniture plan
- Delivery scheduled to suit the construction program
- Installation by supervised crews
- Defect close out and handover documentation

KINAWAY CERTIFIED

01

Height Adjustable

Sit to stand systems built around a dual motor drive, digital control and a five year warranty. Configurable from a single desk to clusters of nine, with Australian made tops.

06 PRODUCTS

COLUMN h/a*

COLUMN h/a CLOVER*

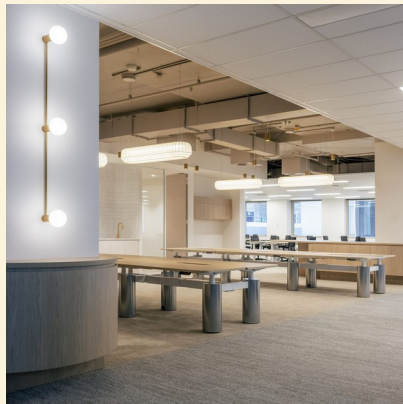

COLUMN h/a desk*

COLUMN h/a executive*

CONUS h/a

CONUS XL h/a

* Excluded for sale in W.A.

HEIGHT ADJUSTABLE

COLUMN h/a[★]

Height adjustable workstation system

Uncompromising when it comes to concealing soft wiring. COLUMN h/a avoids the busy leg forest of conventional height adjustable clusters, with clean lines and a subtle touch of brutalism, scaling from a single position to clusters of nine.

SPECIFICATION

Height	665 to 1315mm with 25mm top
Depth	700 to 900mm per position
Width	1400 to 2100mm per position
Configuration	Back to back clusters with integrated D end
Control	Digital display, 3 memory presets, timer, USB-C
Warranty	5 years

LEAD TIME

White or black satin 4 to 6 weeks.
Paperbark or terracotta 10 to 12 weeks.

ORIGIN

Base China, tops NSW

MATERIALS

Mild steel to all structural parts. Tops in Laminex Core commercial melamine.

FINISHES

White or black satin powder coat. Custom colour shrouds at additional cost.
Paperbark or terracotta at no additional cost.

OPTIONS

Clusters of 2, 3, 4, 5, 6, 7, 8 or 9 positions. Integrated D end.

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

HEIGHT ADJUSTABLE

COLUMN h/a CLOVER[★]

Height adjustable workstation system, circular cluster

COLUMN h/a in a circular configuration for three or four users. The setup encourages an egalitarian workflow and easy collaboration, or with the addition of acoustic planters supports a more focused and private working style.

SPECIFICATION

Height	665 to 1315mm with 25mm top
Cluster of 3	1300 to 1900mm wide per position
Cluster of 4	1100 to 1600mm wide per position
Control	Digital display, 3 memory presets, timer, USB-A and USB-C
Warranty	5 years, extended available

LEAD TIME

White or black satin 4 to 6 weeks.
Paperbark or terracotta 10 to 12 weeks.

ORIGIN

Base China, tops and planters NSW

MATERIALS

Mild steel structural parts. Modular, recyclable components, easily refurbished.

FINISHES

White or black satin powder coat. Custom colour shrouds at additional cost.

OPTIONS

Circular cluster of 3 or 4. Acoustic planters. Powder coat, benchtop and planter finishes.

*** Excluded for sale in W.A.**

Technical documentation. 3D models and finish samples available on request.

HEIGHT ADJUSTABLE

COLUMN h/a desk★

Height adjustable single desk and table

COLUMN h/a as a single desk or a one piece top table, carrying the same drive and control package as the workstation system.

SPECIFICATION

Height	665 to 1315mm with 25mm top
Depth	600 to 1000mm
Width	1400 to 2100mm
Control	Digital display, 3 memory presets, timer, USB-C

LEAD TIME

4 to 6 weeks. Paperbark or terracotta
10 to 12 weeks at no additional cost.

ORIGIN

Base China, top NSW

MATERIALS

Mild steel structural components

FINISHES

White satin, black satin, custom colour shrouds, paperbark or terracotta

OPTIONS

Single desk or one piece top table

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

HEIGHT ADJUSTABLE

COLUMN h/a executive*

Height adjustable L shaped executive desk

A fully height adjustable L shaped desk can be overkill, and more storage is always welcome. COLUMN h/a redesigned for the private office keeps height adjustment where it matters, while the fixed return provides integrated storage and services reticulation.

SPECIFICATION

Desktop height	665 to 1315mm with 25mm top
Desktop	D 600 to 900mm, W 1600 to 2100mm
Return credenza	D 500mm, L 1800 to 2400mm, H 530mm
Control	Digital display, 3 memory presets, timer, USB-A and USB-C

LEAD TIME

6 weeks

ORIGIN

Steel components China, desktop and credenza NSW

MATERIALS

Mild steel structure. Credenza in Laminex or Polytec commercial melamine, or to specification.

FINISHES

White or black satin powder coat. Custom colour shrouds at additional cost.

OPTIONS

Left or right hand return

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

HEIGHT ADJUSTABLE

CONUS h/a

Height adjustable table

The CONUS table reinvented for worktop height flexibility. A monolithic statement piece with all the benefits of a sit to stand table. The same base is available with fixed parts where a 720mm fixed height suits.

SPECIFICATION

Height	665 to 1315mm with 25mm top
Depth	600 to 1200mm
Length	600 to 4200mm
Control	Digital display, 3 memory presets, timer, USB-C

LEAD TIME

White or black satin 4 to 6 weeks.
Paperbark or terracotta 10 to 12 weeks.

ORIGIN

Base China, tops NSW

MATERIALS

Mild steel to all structural parts

FINISHES

White satin, black satin, custom colour shrouds, paperbark or terracotta

OPTIONS

Single, double or triple base. Fixed height version.

Technical documentation, 3D models and finish samples available on request.

HEIGHT ADJUSTABLE

CONUS XL h/a

Height adjustable table, large format

CONUS XL h/a is built to work harder than the standard variant. Four motors and a 240kg lifting capacity suit large format collaborative and boardroom settings.

SPECIFICATION

Height	665 to 1315mm with 25mm top
Depth	600 to 1200mm
Length	1800 to 2400mm
Drive	4 motors, 240kg lifting capacity
Control	Digital display, 3 memory presets, timer, USB-C

LEAD TIME

Indent, 12 weeks

ORIGIN

China

MATERIALS

Mild steel to all structural parts

FINISHES

White, black, paperbark or terracotta powder coat

OPTIONS

Double base

Technical documentation, 3D models and finish samples available on request.

02

Tables and Workstations

Component based bases that scale from a single desk to an infinite modular run. Quick ship stock finishes, with made to order options in Dulux and Interpon colour ranges.

TABLES AND WORKSTATIONS

COLUMN[★]

Table and workstation system

Mild steel tube legs give COLUMN its monolithic visual language and suit organically shaped configurations. A classical leg style sits comfortably in the built environment, with generous top overhangs for ample knee room. Unique 90/60 joining plates support irregular shaped tops across the full area.

SPECIFICATION

Height	720mm
Depth	800 to 1800mm
Length	1200 to 2400mm, infinite modular length
Joining	90/60 plates support irregular tops

LEAD TIME

Quick ship, 2 to 3 weeks

ORIGIN

China

MATERIALS

Mild steel tube legs

FINISHES

Black or white matt powder coat

OPTIONS

Linear, back to back, L shape and irregular trapezium tops at 90, 60 and 120 degrees

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

TABLES AND WORKSTATIONS

OBLONG*

Workstation and table base system

A component based, dual origin system with configurations spanning boardrooms, break out and workspace. A wide range of leg stances, with 15 and 30 degree leg rotation options, keeps the visual language continuous across a floor plate without compromising use.

SPECIFICATION

Height	720mm and 1000mm, or custom
Depth	600 to 1800mm
Length	1200 to 2000mm, infinite modular length
Leg rotation	0, 15 and 30 degree options
Warranty	10 years

LEAD TIME

Quick ship 2 to 3 weeks, or 6 to 8 weeks

ORIGIN

Dual origin, base components Taiwan

MATERIALS

Powder coated mild steel base components

FINISHES

IRON and PAPERBARK stocked. Custom in Dulux or Interpon standard colours.

OPTIONS

Linear, back to back, L shape, custom. Optional castors.

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

TABLES AND WORKSTATIONS

TUBE

Workstation and table base system

Hardware does not have to look hard. Curves and textures give TUBE a gentler composition, and a component based dual origin system delivers configurations from boardroom to break out and workspace.

SPECIFICATION

Height	720mm
Depth	600 to 1800mm
Length	1200 to 2000mm, infinite modular length
Warranty	10 years

LEAD TIME

Quick ship 2 to 3 weeks, or 4 to 6 weeks

ORIGIN

NSW (GECA and ISO 14001 certified) and Taiwan (ISO 9001 certified)

MATERIALS

Powder coated mild steel

FINISHES

Matt white and matt black stocked. Custom or made to order in Dulux or Interpon standard colours.

OPTIONS

Linear, back to back, L shape, 120 degrees, custom

CERTIFICATION

ISO 14001, ISO 9001 and GECA as stated by K.I.D

Technical documentation, 3D models and finish samples available on request.

TABLES AND WORKSTATIONS AUSTRALIAN MADE

CONUS

Meeting table

A meeting table with a pedestal style base that easily takes a central power box, with an integrated soft wiring option and a solid American Oak power access tray lid.

SPECIFICATION

Height	720mm with steel top
Diameter	1000 to 1200mm
Top	4mm steel, or melamine and veneer options

LEAD TIME

6 to 8 weeks

ORIGIN

NSW

MATERIALS

Rolled sheet steel conical base. Solid American Oak power access tray lid.

FINISHES

Dulux or Interpon standard powder coat to base. Top to match or as specified.

OPTIONS

Steel, melamine or veneer top. Integrated soft wiring.

Technical documentation, 3D models and finish samples available on request.

DONUT

Table

Form following function. Floor service boxes and conventional disc table bases rarely work together. The organic form of DONUT allows power access to existing floor infrastructure.

SPECIFICATION

Height	725mm
Depth	925mm
Width	1100mm
Top	Removable 4mm steel, alternatives available
Power	OEE Safe Arc-G module recommended

LEAD TIME

6 to 8 weeks, made to order

ORIGIN

NSW, ISO 14001 certified facility

MATERIALS

Fully welded mild steel

FINISHES

Dulux or Interpon stocked powder coat colours

OPTIONS

Alternative top materials. Size restrictions apply for power box integration.

CERTIFICATION

ISO 14001 facility as stated by K.I.D

Technical documentation, 3D models and finish samples available on request.

HALFMOON★

Table, bar table, console and bench

A furniture family celebrating the materiality of sheet steel, where solidity takes on a more fluid visual language as it is shaped into gentle curves.

SPECIFICATION

Legs	6mm rolled mild steel
Tops	25mm thick
Feet	Black adjustable

LEAD TIME

6 to 8 weeks, made to order only

ORIGIN

NSW, base made in an ISO 14001 certified facility

MATERIALS

Rolled mild steel legs. Tops in laminate, melamine or veneer. Commercial grade foam to bench seat.

FINISHES

Interpon or Dulux stocked powder coat. Upholstery to specification on bench.

OPTIONS

Table, bar table, console or bench

CERTIFICATION

ISO 14001 facility as stated by K.I.D

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

TABLES AND WORKSTATIONS

NOMAD laptop table

Mobile laptop table

A sturdy work surface wherever it is needed, suited to the free flow of an office floor, with a handy bag hook to keep things off the floor.

SPECIFICATION

Height	650mm
Depth	310mm
Width	300mm
Base	Weighted, with glides
Feature	Integrated bag hook

LEAD TIME

2 to 4 weeks

ORIGIN

Taiwan

MATERIALS

Fully welded mild steel with weighted base

FINISHES

Textured black or paperbark powder coat

OPTIONS

Nil

Technical documentation, 3D models and finish samples available on request.

03

Seating

Focus, collaborative and lounge seating made largely in Western Australia and New South Wales, specified in your fabric and refurbishable at end of life.

SEATING AUSTRALIAN MADE

BASE★

Focus desks and seating

A monolith design language pared back to minimal geometric forms that sit quietly within the architecture. Component sizing is optimised to reduce fabric and foam waste, while small wall voids combined with foam and fabric deliver both visual and acoustic privacy.

SPECIFICATION

Height	800mm and 1200mm
Depth	700mm and 2300mm
Width	800mm and 1700mm
Worktop height	720mm
Seat height	450mm
Custom	Sizes available

LEAD TIME

4 to 6 weeks

ORIGIN

NSW and WA

MATERIALS

MDF and timber structure, commercial grade foam, steel tube table base

FINISHES

Felt, woven or quilted fabrics recommended for sound absorption. Laminex, Polytec, ply, veneer or Forbo Furniture Linoleum tops.

OPTIONS

Focus desks, seating, custom sizes

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

SEATING AUSTRALIAN MADE

DATUM

Modular seating system

Once a custom one off lounge, now a versatile modular seating system for the largest and smallest of spaces, where curves and plump organic volumes make a strong statement within a curated collection.

SPECIFICATION

Height	800mm
Depth	700 and 746mm
Module widths	240, 420, 700 and 1400mm
Seat height	450mm

LEAD TIME

6 to 8 weeks

ORIGIN

WA

MATERIALS

Ply structure, commercial grade foam. American Oak coffee table.

FINISHES

Kvadrat Arda or upholstery to specification

OPTIONS

Modular components, coffee table, ottoman

Technical documentation, 3D models and finish samples available on request.

SEATING AUSTRALIAN MADE

TEND★

Modular seating system

Curved high back lounges can look heavy, even too corporate. TEND brings the practicality and flexibility of collaborative seating together with a residential visual language for a more relaxed look.

SPECIFICATION

Height	750 to 900mm
Depth	650, 820 and 900mm
Width	700 to 2100mm
Seat height	450mm

LEAD TIME

6 to 8 weeks

ORIGIN

WA

MATERIALS

Ply structure, commercial grade foam, oak dowel legs

FINISHES

Upholstery and ledge finish to specification

OPTIONS

Ottoman, single and double lounge, curved low back, curved high back, stools

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

SEATING AUSTRALIAN MADE

SABI

Low lounge chair

Corporate and public spaces are embracing a more casual feel. SABI is a low lounge with subtle oriental notes that delivers on comfort, with low seating that invites relaxed body language.

SPECIFICATION

Height	700mm
Depth	830mm
Width	550mm
Seat height	380mm
Warranty	5 years
End of life	Refurbishable through standard reupholstery

LEAD TIME
Made to order, 6 to 8 weeks

ORIGIN
WA

MATERIALS
American Oak frame, Joyce foam, locally made structural components

FINISHES
American Oak natural, white wash or black stain. Upholstery to specification.

OPTIONS
Stained or natural oak frame

Technical documentation, 3D models and finish samples available on request.

SEATING AUSTRALIAN MADE

EASY_s*

Lounge

A reinterpretation of the oversized EASY chair with reduced proportions, plus two and three seaters to widen its use. Huggable geometry and carefully chosen upholstery give it a friendly presence.

SPECIFICATION

Height	770mm
Depth	790mm
Width	800 to 1900mm
Seat height	450mm

LEAD TIME

6 to 8 weeks

ORIGIN

WA

MATERIALS

MDF structure with webbing to seat, Victorian Ash dowel legs, commercial grade foam

FINISHES

Kvadrat Arda or Instyle Cocoon. Victorian Ash legs stained to preference.

OPTIONS

Lounge chair, double seater, triple seater, foot stool

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

NOD

Modular lounge

A component based seating range for many settings, defined by 200mm diameter half bolster armrests and backs.

SPECIFICATION

Height	740mm overall
Seat height	440mm
Bolster	200mm diameter half bolster to arms and back

LEAD TIME

6 to 8 weeks

ORIGIN

WA

MATERIALS

MDF substructure, medium density commercial grade foam, mild steel legs with adjustable glides

FINISHES

Powder coated white or black, or custom Dulux or Interpon. Upholstery to specification.

OPTIONS

Component based configurations, contrast panelling, custom powder coated legs

Technical documentation, 3D models and finish samples available on request.

SEATING

FOLD

hi_low seating range

Designed and built for commercial spaces: tough on the outside and soft on the inside. Removable acoustic PET screens let the seating adapt as requirements change.

SPECIFICATION

Overall heights	700 and 1200mm
Seat height	430mm
Depth	725mm
Widths	800, 850, 1600 and 1650mm
Acoustic screens	24mm PET, bolt fixed behind zipped side cushions

LEAD TIME

On application

ORIGIN

WA and NSW. PET panels China, legs Taiwan.

MATERIALS

Mild steel legs with adjustable glides, MDF and Jarrah substructure, commercial grade foam, 24mm PET acoustic panels

FINISHES

Two tone upholstery to specification. In house PET acoustic screen range. Dulux Duramax standard colours.

OPTIONS

Removable acoustic screens, custom hand painted buttons, ombre PET panels

Technical documentation, 3D models and finish samples available on request.

SEATING AUSTRALIAN MADE

COOKIE

Chair

A little kooky darling of a chair. Joyful, optimistic visual language and hugging geometry, Australian designed and made.

SPECIFICATION

Height	830mm
Depth	560mm
Width	600mm
Seat height	450mm
Warranty	5 years
End of life	Refurbishable through standard reupholstery

LEAD TIME

Made to order, 6 to 8 weeks. Minimum order 2.

ORIGIN

WA

MATERIALS

American Oak frame, Joyce foam, Sustainable Living Fabrics Chelsea range

FINISHES

American Oak natural, white wash or black stain. Upholstery colour to specification.

OPTIONS

Stained or natural oak frame

Technical documentation, 3D models and finish samples available on request.

SEATING AUSTRALIAN MADE

SUMMERDAY

Chair

The design explores the natural properties of its materials. Mild steel tube flexes to give supported movement, while post consumer recycled HDPE slabs give a hygienic, long lasting surface. Frames are hand rolled locally and no two seats are identical.

SPECIFICATION

Height	850mm
Depth	600mm
Width	460mm
Seat height	450mm
Frame	18mm diameter rolled mild steel tube
Seat and back	18mm post consumer recycled HDPE slab

LEAD TIME

6 to 8 weeks

ORIGIN

NSW and WA

MATERIALS

Rolled mild steel tube, post consumer recycled HDPE, commercial grade foam on upholstered option

FINISHES

Dulux or Interpon powder coat. HDPE in black, white or Jungle Board.

OPTIONS

HDPE or upholstered seat in Kvadrat Arda or specified fabric

Technical documentation, 3D models and finish samples available on request.

SEATING

NOMAD

Agile benches

Compact yet comfortable, impactful yet unobtrusive. Roll NOMAD benches at will to shape spaces and collaboration, on lockable heavy duty platform castors.

SPECIFICATION

Height	710mm overall
Seat height	450mm
Depth	550mm
Length	1410 to 1600mm
Castors	Lockable heavy duty platform

LEAD TIME

6 to 8 weeks

ORIGIN

Taiwan and WA

MATERIALS

MDF structure, commercial grade foam, mild steel bases

FINISHES

Kvadrat Arda or upholstery to specification. Textured black or paperbark powder coat.

OPTIONS

Linear or curved bench

Technical documentation, 3D models and finish samples available on request.

SEATING AUSTRALIAN MADE

BENCH

Bench seat

An understated bench for impromptu gatherings, touchdown and short waiting areas. Adjustable feet keep it firmly footed and the plywood seat adds warmth, with Forbo Furniture Linoleum available for colour contrast.

SPECIFICATION

Height	450mm
Depth	350mm
Width	800 to 1800mm, or 1800 to 3400mm with modular middle leg

LEAD TIME

6 to 8 weeks

ORIGIN

NSW

MATERIALS

Rolled mild steel legs, plywood seat

FINISHES

Dulux or Interpon standard powder coat. Optional Forbo Furniture Linoleum top.

OPTIONS

Single or modular middle leg setup

Technical documentation, 3D models and finish samples available on request.

SEATING

LITTLE

Stool or side table

A flexible, casual seat or side table that adds some playfulness to break out and touchdown spaces. Handmade mild steel tube base with rubber glides and a birch ply top.

SPECIFICATION

Height	450mm
Width	320mm
Depth	320mm
Top	25mm birch ply

LEAD TIME

4 to 6 weeks

ORIGIN

Base Taiwan, top NSW

MATERIALS

19mm diameter mild steel tube base, birch ply top

FINISHES

Black or white powder coat standard. Custom Dulux or Interpon colours.

OPTIONS

Upholstered soft seat in fabric of choice

Technical documentation, 3D models and finish samples available on request.

* Excluded for sale in W.A.

ACOUSTIC AND SCREENS

RAPT★

Custom acoustic wall covering

PET wall panelling restricts sound travel, more so when combined with a ceiling application. A custom colour design brings life to a meeting, boardroom, break out or office wall, with a groove pattern for further interest. It is also pinnable.

SPECIFICATION

Board thickness	9mm and 12mm, combined for depth
Weight	1300 to 3500 g/m2
Fire	AS ISO 9705 and AS 5637 classification to the NCC
Standards	EN 13501 flame retardant, EN ISO 354:2003 acoustics

LEAD TIME

On application

ORIGIN

China

MATERIALS

AS/NZS 4266 recycled PET staple fibre, free of chemical irritants and harmful substances

FINISHES

Custom colour designs from the PET panel colour range

OPTIONS

Custom design, groove pattern, pinnable surface

CERTIFICATION

EN 13501, EN ISO 354, NCC AS ISO 9705 as stated by K.I.D

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

ACOUSTIC AND SCREENS

Mr SCREEN

Portable acoustic and pinnable room divider

Cutting patterns optimise the acoustic sheet to the last piece. Panels assemble easily into a free standing room divider in any two colours from the house range, or another readily available PET panel.

SPECIFICATION

Height	1570mm
Width	1120mm
Panel	24mm thick
Supply	Made to order only

LEAD TIME

4 to 6 weeks, made to order

ORIGIN

PET panel China, cutting and assembly Australia

MATERIALS

PET acoustic panel

FINISHES

Any two colours from the house range, or custom PET panel colour

OPTIONS

Custom configuration, two colour combination

Technical documentation, 3D models and finish samples available on request.

ACOUSTIC AND SCREENS

SCORE

Wrap around workstation screen

A cut pattern developed to allow a gentle bend in the PET acoustic panel, wrapping the screen around the workspace for more privacy and less sound travel. Cut out patterns are sheet optimised to reduce waste.

SPECIFICATION

Panel	Up to 80 per cent post consumer PET
Fire	AS ISO 9705 and AS 5637 classification to the NCC
Patterns	Range of sheet optimised cut outs

LEAD TIME

2 to 3 weeks

ORIGIN

China, cutting and assembly NSW

MATERIALS

PET acoustic panel made from up to 80 per cent post consumer PET

FINISHES

House PET panel colour range

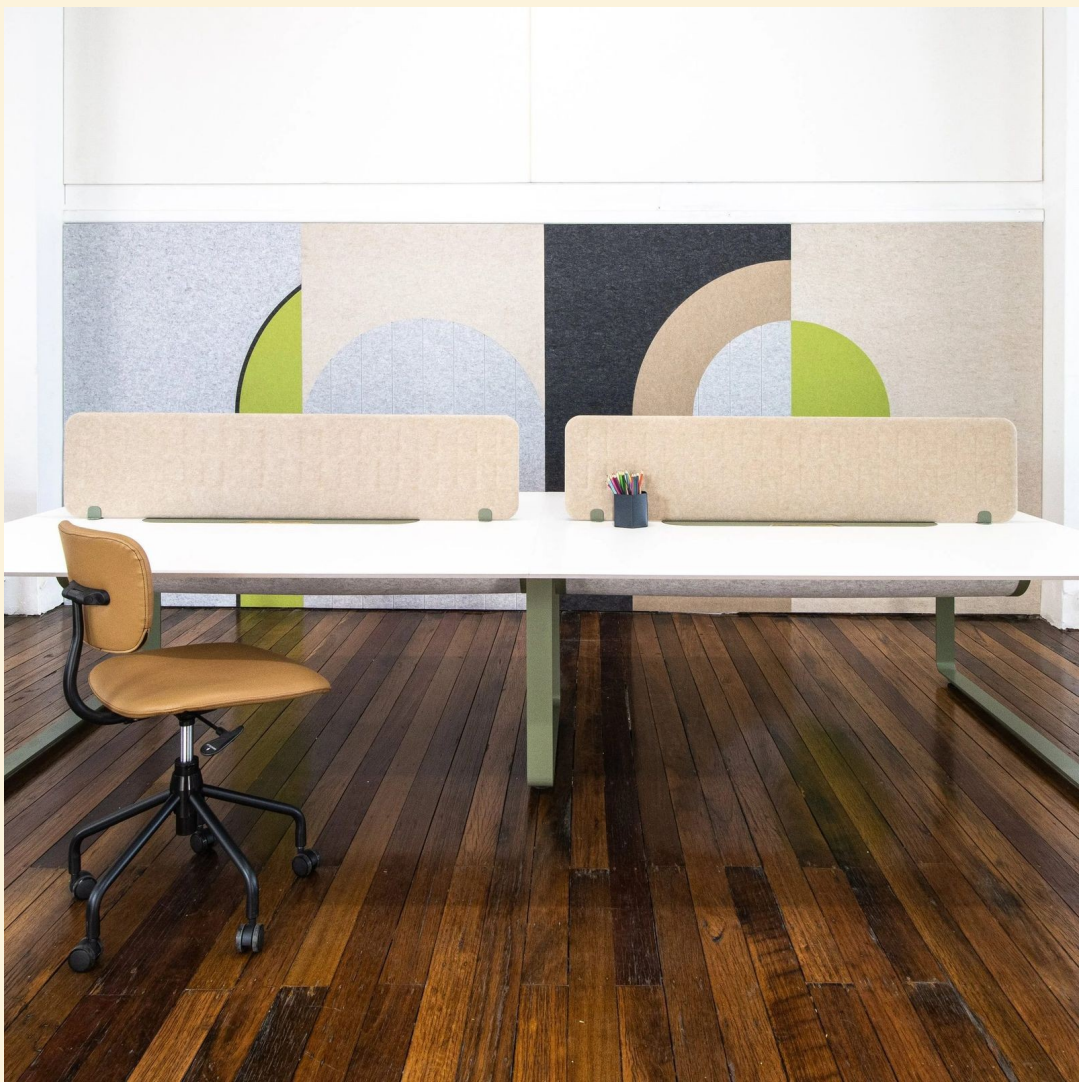

OPTIONS

Range of cut out patterns

CERTIFICATION

NCC AS ISO 9705, AS 5637 as stated by K.I.D

Technical documentation, 3D models and finish samples available on request.

ACOUSTIC AND SCREENS

PUFFY

Modesty panel or workstation screen

Hot compression moulding produces a stiff, double layered 17mm pre formed pinnable PET panel, equally effective as a dividing screen or a desk modesty panel. A subtle relief adds interest without competing with the interior.

SPECIFICATION

Heights	325mm and 600mm
Length	1400mm
Panel	17mm double layered, pre formed and pinnable

LEAD TIME

In stock

ORIGIN

China

MATERIALS

Post consumer PET fibre, dyed and compressed

FINISHES

BZ-11 light grey, BZ-03 charcoal, BZ-12 alabaster

OPTIONS

Dividing screen or desk modesty panel

Technical documentation, 3D models and finish samples available on request.

ACOUSTIC AND SCREENS

OM

Baffle pendant

Inspired by Mani wheels, these pendants are laser cut from 12mm acoustic PET panel for decorative appeal and noise reduction. Each kit has three pieces in one colour and assembles without glue, with an optional LED light.

SPECIFICATION

Heights	870mm, 600mm and 300mm
Diameter	440mm
Panel	12mm acoustic PET, up to 60 per cent recycled fibre
Warranty	5 years

LEAD TIME

In stock soon

ORIGIN

China

MATERIALS

12mm acoustic PET panel

FINISHES

BZ11, BZ04, BZ32. Other colours as indent.

OPTIONS

Kit of three in one colour. Dual colour for larger quantities. Optional LED.

Technical documentation, 3D models and finish samples available on request.

05

Power and Data

Soft wiring management designed around the way people actually work, using post consumer recycled PET felt and HDPE and locally made components.

03 PRODUCTS

TRAX_t

TRAX_lite*

ZERO

* Excluded for sale in W.A.

POWER AND DATA

TRAX_t

Workstation soft wiring management system

Cable management built around real user behaviour. Drop a laptop charger into the basket and the workstation still looks neat from any angle. The recycled PET felt tray carries user fly leads while the top tier cableway is kept for data.

SPECIFICATION

Lengths	1273mm and 1775mm, cut to size
Services	Up to 8 GPO and 4 data per shared assembly
Carriage	Secured in any position along the length
Access	Power and data reachable above or under the desktop

LEAD TIME

4 weeks

ORIGIN

NSW and Taiwan

MATERIALS

Folded mild steel, 80 per cent post consumer recycled PET felt tray

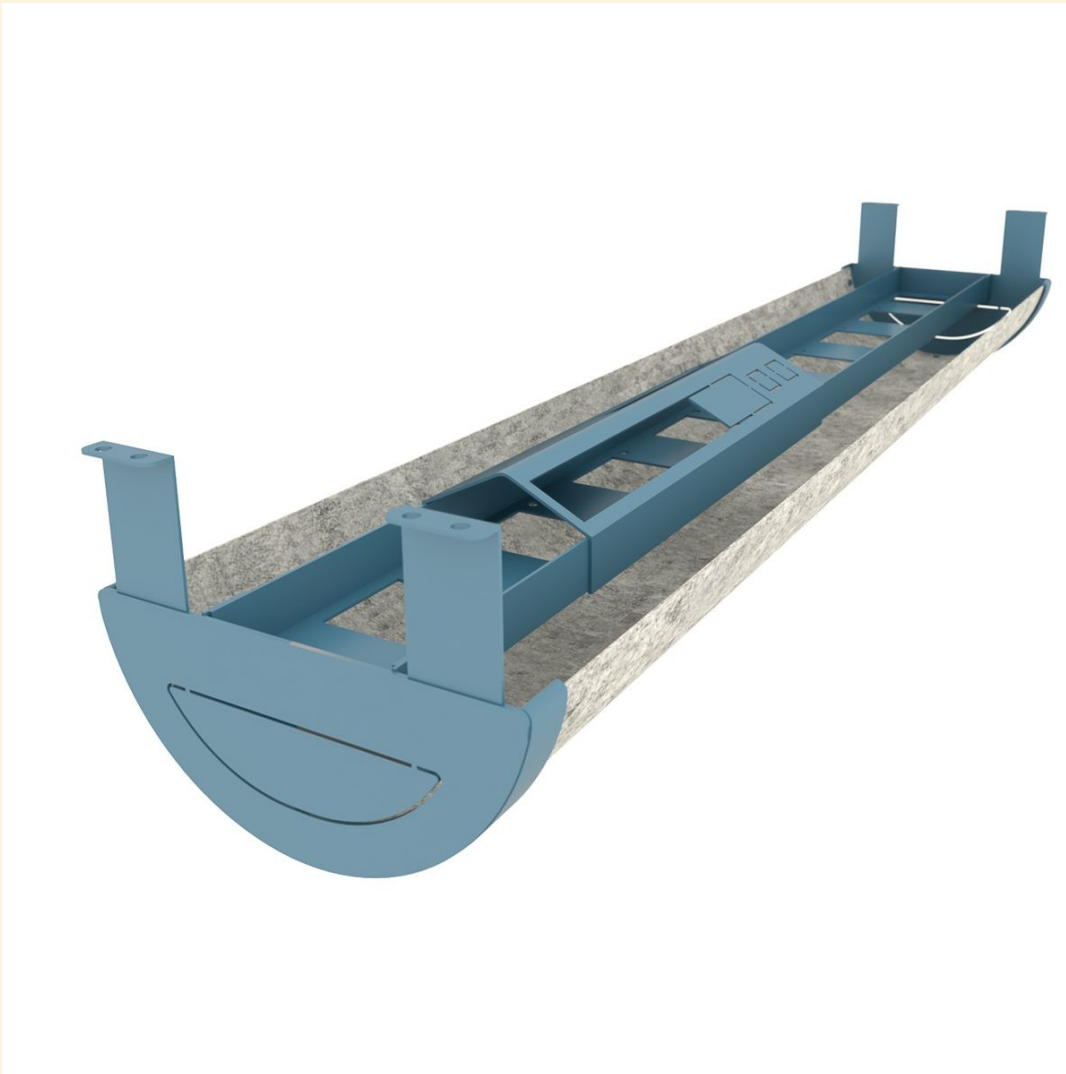

FINISHES

Paperbark, white or black. Grey or charcoal felt.

OPTIONS

Cut to required size in 100mm increments, adjustable carriage position

Technical documentation, 3D models and finish samples available on request.

POWER AND DATA

TRAX_lite*

Individual desk soft wiring management

A simple soft wiring solution for people who value an organised desk. Installed independently and paired with the recycled PET felt cable sling, it neatly reticulates and conceals services.

SPECIFICATION

Height	150mm
Depth	100mm
Length	600 to 1400mm
Services	Allowance for 4 GPO and up to 2 data

LEAD TIME

2 to 4 weeks

ORIGIN

NSW cutting, sewing and assembly.
Steel Taiwan, felt China.

MATERIALS

2mm powder coated mild steel and 3mm PET felt, 80 per cent post consumer recycled

FINISHES

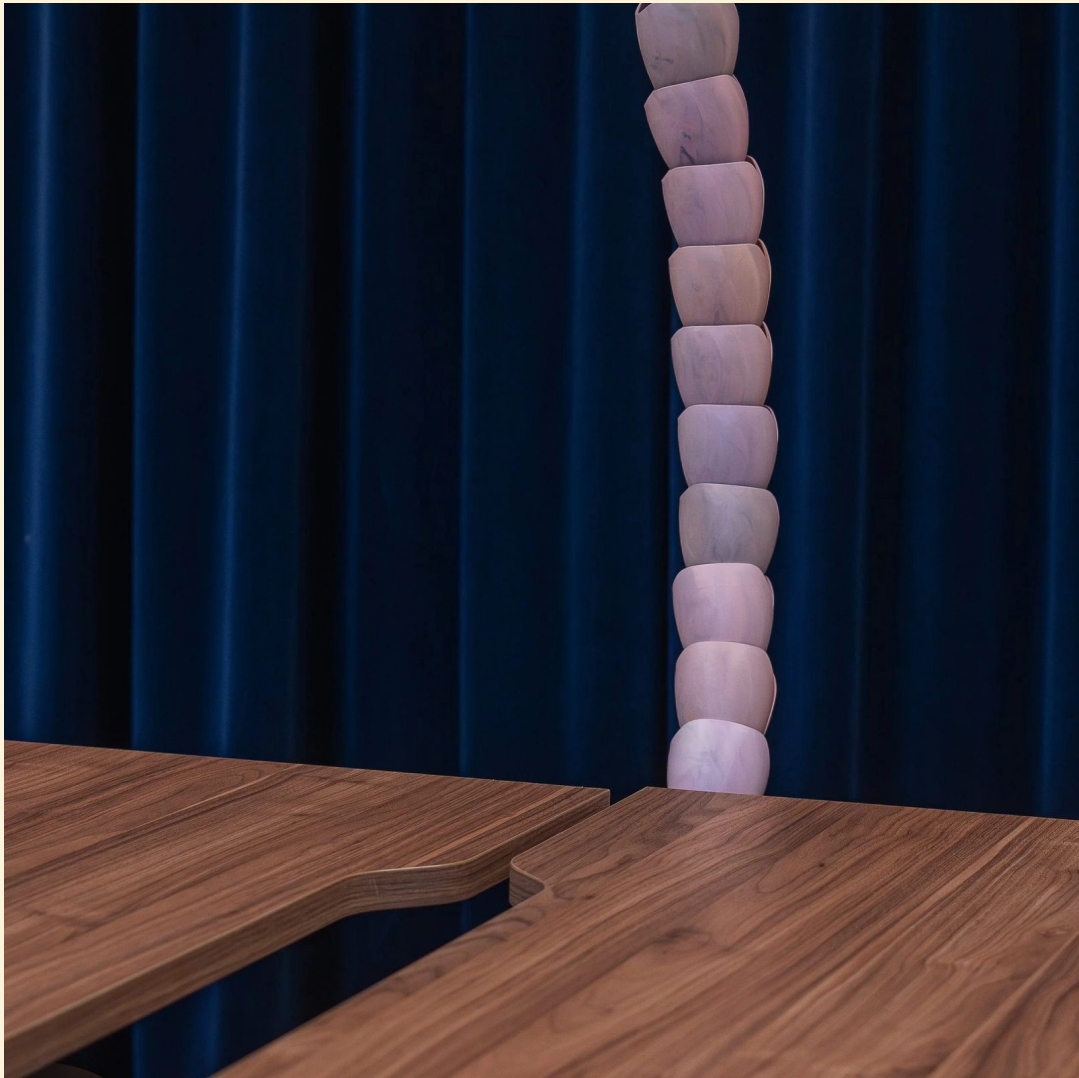

Steel in black, white or paperbark. Felt in charcoal, light grey or natural.

OPTIONS

Free standing single desks, height adjustable desks, side by side configurations

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

POWER AND DATA AUSTRALIAN MADE

ZERO

Umbilical cable reticulation

Most commercial interiors are refitted within five years, sending imported virgin plastic to landfill. ZERO links are made in Sydney from post consumer HDPE collected from household and beauty containers, threaded on steel tension wire.

SPECIFICATION

Lengths	700mm, 1000mm and 2700mm
Extension	Additional links to suit ceiling height

LEAD TIME

2 to 4 weeks

ORIGIN

Sydney NSW

MATERIALS

Post consumer HDPE and steel tension wire

FINISHES

Charcoal and light grey. Dusty pink, leaf green, ochre, putty and navy as special runs.

OPTIONS

FATI*
PATU

* Excluded for sale in W.A.

STORAGE AND ANCILLARY

BASIX

Storage cabinet

An alternative to the conventional tambour unit at the end of a workstation run. Durable melamine replaces thin sheet steel, and softly finished fabric doors replace rattly plastic tambours, opening up colour and pattern.

SPECIFICATION

Height	1200mm
Depth	390mm
Width	900mm
Warranty	5 years

LEAD TIME

4 to 6 weeks

ORIGIN

NSW, feet Taiwan

MATERIALS

Laminex Core commercial melamine, upholstered doors, powder coated mild steel legs

FINISHES

Fabric of choice to doors. Laminex or Polytec ranges. Painted MDF or ply with polyurethane finish.

OPTIONS

Custom size, configuration and finishes to specification

Technical documentation, 3D models and finish samples available on request.

STORAGE AND ANCILLARY AUSTRALIAN MADE

CLOUT

Modular shelf and side table

Driven first by aesthetics with a touch of modular convenience, its sculptural form drawn from the knuckles of an old friend's hands. As a side table CLOUT stacks or groups into taller or wider surfaces; hung, it forms a shelf with a scalloped rhythm of curved steel.

SPECIFICATION

Module	W 300mm, D 220mm, H 230mm
Warranty	10 years
End of life	Refurbishable by re powder coating

LEAD TIME

Made to order, 6 weeks

ORIGIN

NSW

MATERIALS

Fully recyclable mild steel

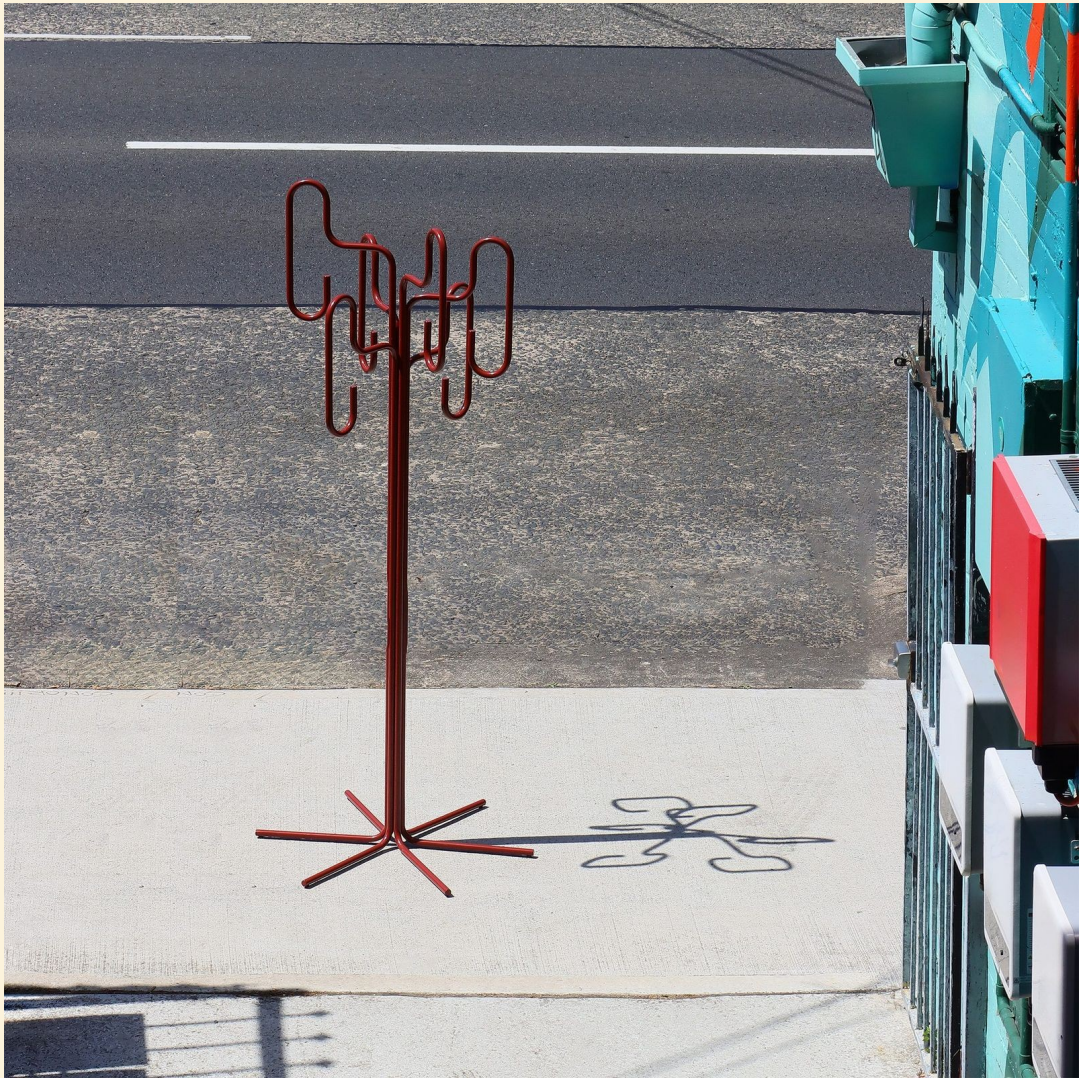

FINISHES

Dulux or Interpon standard stock powder coat colours

OPTIONS

Side table or hanging shelf. Custom sizing.

Technical documentation, 3D models and finish samples available on request.

STORAGE AND ANCILLARY AUSTRALIAN MADE

HUNGER

Coat stand

A reimagining of the classic coat tree with a bold, expressive form achieved by rolling 20mm mild steel tube. Inward facing hooks let hats hang on the top arches.

SPECIFICATION

Height	1920mm
Diameter	800mm
Warranty	5 years
End of life	Fully recyclable, refurbishable by re powder coating

LEAD TIME

Made to order, 6 weeks

ORIGIN

NSW

MATERIALS

20mm mild steel tube

FINISHES

Dulux or Interpon standard stock powder coat colours

OPTIONS

Powder coat colour

Technical documentation, 3D models and finish samples available on request.

MAS

Planter

Designed with the GEYER VALMONT Interiors team, MAS acts as a green wayfinding device or gives privacy to desk users at the end of a workstation cluster. Made entirely from mild steel, with a removable mulch cover and galvanised drip tray.

SPECIFICATION

Height	900mm
Depth	450mm
Width	1500mm
Pot cut outs	196mm diameter
Warranty	5 years

LEAD TIME

Made to order, 6 weeks

ORIGIN

NSW

MATERIALS

Mild steel with galvanised drip tray

FINISHES

Dulux or Interpon standard stock powder coat colours

OPTIONS

Dual colour, contrasting mulch tray and legs, removable mulch cover

Technical documentation, 3D models and finish samples available on request.

STORAGE AND ANCILLARY

GROVE

Planter

A floor planter with a watertight insert container for direct planting. Mild steel base and body with a recycled and recyclable ABS insert.

SPECIFICATION

Height	720mm
Depth	300mm
Width	800mm
Insert	3mm recycled ABS

LEAD TIME

2 to 4 weeks

ORIGIN

Body Taiwan, tray NSW

MATERIALS

Mild steel base and body, 3mm recycled and recyclable ABS insert

FINISHES

Textured white, textured black, satin navy or satin terracotta, with black tray and feet

OPTIONS

Standard colours

Technical documentation, 3D models and finish samples available on request.

FATI★

Desk planter and hanging cachepot

The ultimate workstation accessory. A circular, top mounted planter compact enough to make a favourite plant feel at home on the desk. The made to measure hanging cachepot fixes to the slab or beam to define space without permanent walls.

SPECIFICATION

Desk planter	350mm diameter, 300mm high
Fixing	Drill through, top mounted
Hanging cachepot	Made to suit ceiling height, screw fixed to slab or beam

LEAD TIME

6 to 8 weeks

ORIGIN

NSW

MATERIALS

Mild steel

FINISHES

Dulux or Interpon standard powder coat colours

OPTIONS

Desk planter or hanging cachepot

*** Excluded for sale in W.A.**

Technical documentation, 3D models and finish samples available on request.

PATU

Services cover and spine screen stand

A workstation services access cover and spine screen stand in 25mm birch plywood with a matt clear polyurethane finish.

SPECIFICATION

Material	25mm birch plywood
Finish	Matt polyurethane clear

LEAD TIME

3 to 5 weeks

ORIGIN

NSW

MATERIALS

25mm birch plywood

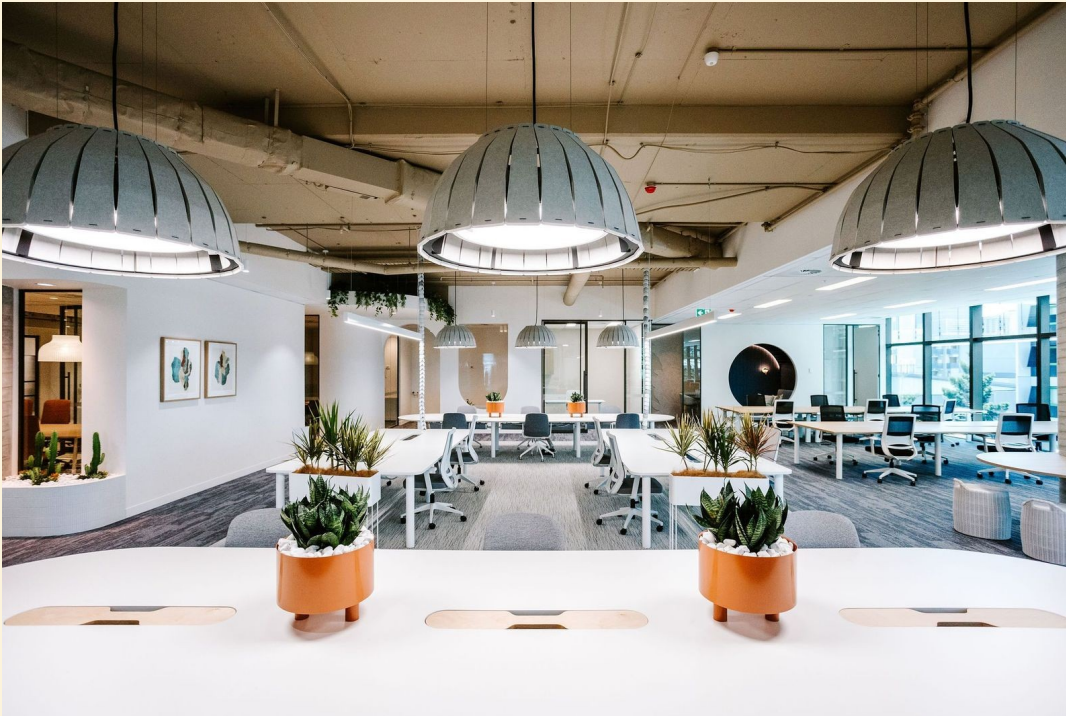

FINISHES

Matt polyurethane clear. Optional Forbo Furniture Linoleum overlay, minimum order quantities apply.

OPTIONS

Forbo Furniture Linoleum top overlay

Technical documentation, 3D models and finish samples available on request.

ORIGIN

Australian made

Products below are made in Australia as listed by Klaro Industrial Design (K.I.D). Several other lines carry Australian made tops or components on an imported base, and country of origin is stated on every product page.

CONUS	NSW	SABI	WA	ZERO	Sydney NSW
DONUT	NSW	EASY_s	WA	CLOUT	NSW
HALFMOON	NSW	NOD	WA	HUNGER	NSW
BASE	NSW and WA	COOKIE	WA	MAS	NSW

TEND	WA	BENCH	NSW	PATU	NSW

CERTIFICATION NOTE

Certifications shown in this brochure are those published by Klaro Industrial Design (K.I.D). Obtain current certificates from K.I.D through Binowee Group before relying on any certification in a tender response.

WESTERN AUSTRALIA

Products marked * are excluded for sale in W.A. All other products are available nationally.

Supply, delivery and installation

SPECIFICATION SUPPORT

Finish and fabric selection against the design intent, budget options at equivalent quality, and confirmation of lead times before the schedule is locked. K.I.D maintains a specifier library of 3D models, material specifications and custom capability.

PROCUREMENT AND PROGRAM

Quick ship lines run 2 to 3 weeks, made to order lines 4 to 8 weeks and indent lines up to 12 weeks. Orders are placed against the construction program, with stock held where site access is uncertain.

DELIVERY AND INSTALLATION

Delivery scheduled to the builder's access windows, protection of finished surfaces, installation by supervised crews, packaging removal and progressive clean. Out of hours and staged floor by floor installation available.

HANDOVER

Setout checked against the approved furniture plan, defect walk with the builder or client, warranty documentation and operating instructions for height adjustable product issued at handover.
