We make furniture to bring people together people, create links and strengthen relationships. We want to create moments of connection, bring new spaces to life and enrich old places. We want to make meetings to be more charming and to make meetings more comfortable. We want to be a help for those who write poems, design posters, send emails, enjoy a dinner, contemplate art or play an instrument.

We are the daughters and granddaughters of cabinetmakers. We make furniture in the contemporary world, which obliges us to make a rereading of tradition and in the key of tradition and innovation. Each collection we make is an expression of our deep respect for what matters most to us: a craftsmanship heritage of over

forty years and the desire to evolve to maintain a vibrant style and a balance between the functional and the beautiful, between the handmade and the technologically advanced. This is what makes us get up every morning and what keeps us on our feet, on the move, facing challenges and reinventing our company, with the sole aim of transmitting this enthusiasm to our customers, the fruit of the relentless passion we pour into the creation of our products.

Connect, keep going, persist.

We love our work. We enjoy incorporating and sharing the new perspectives, big dreams and good ideas that come with each new member that joins our family. For our art and our clients, we stand by our work.

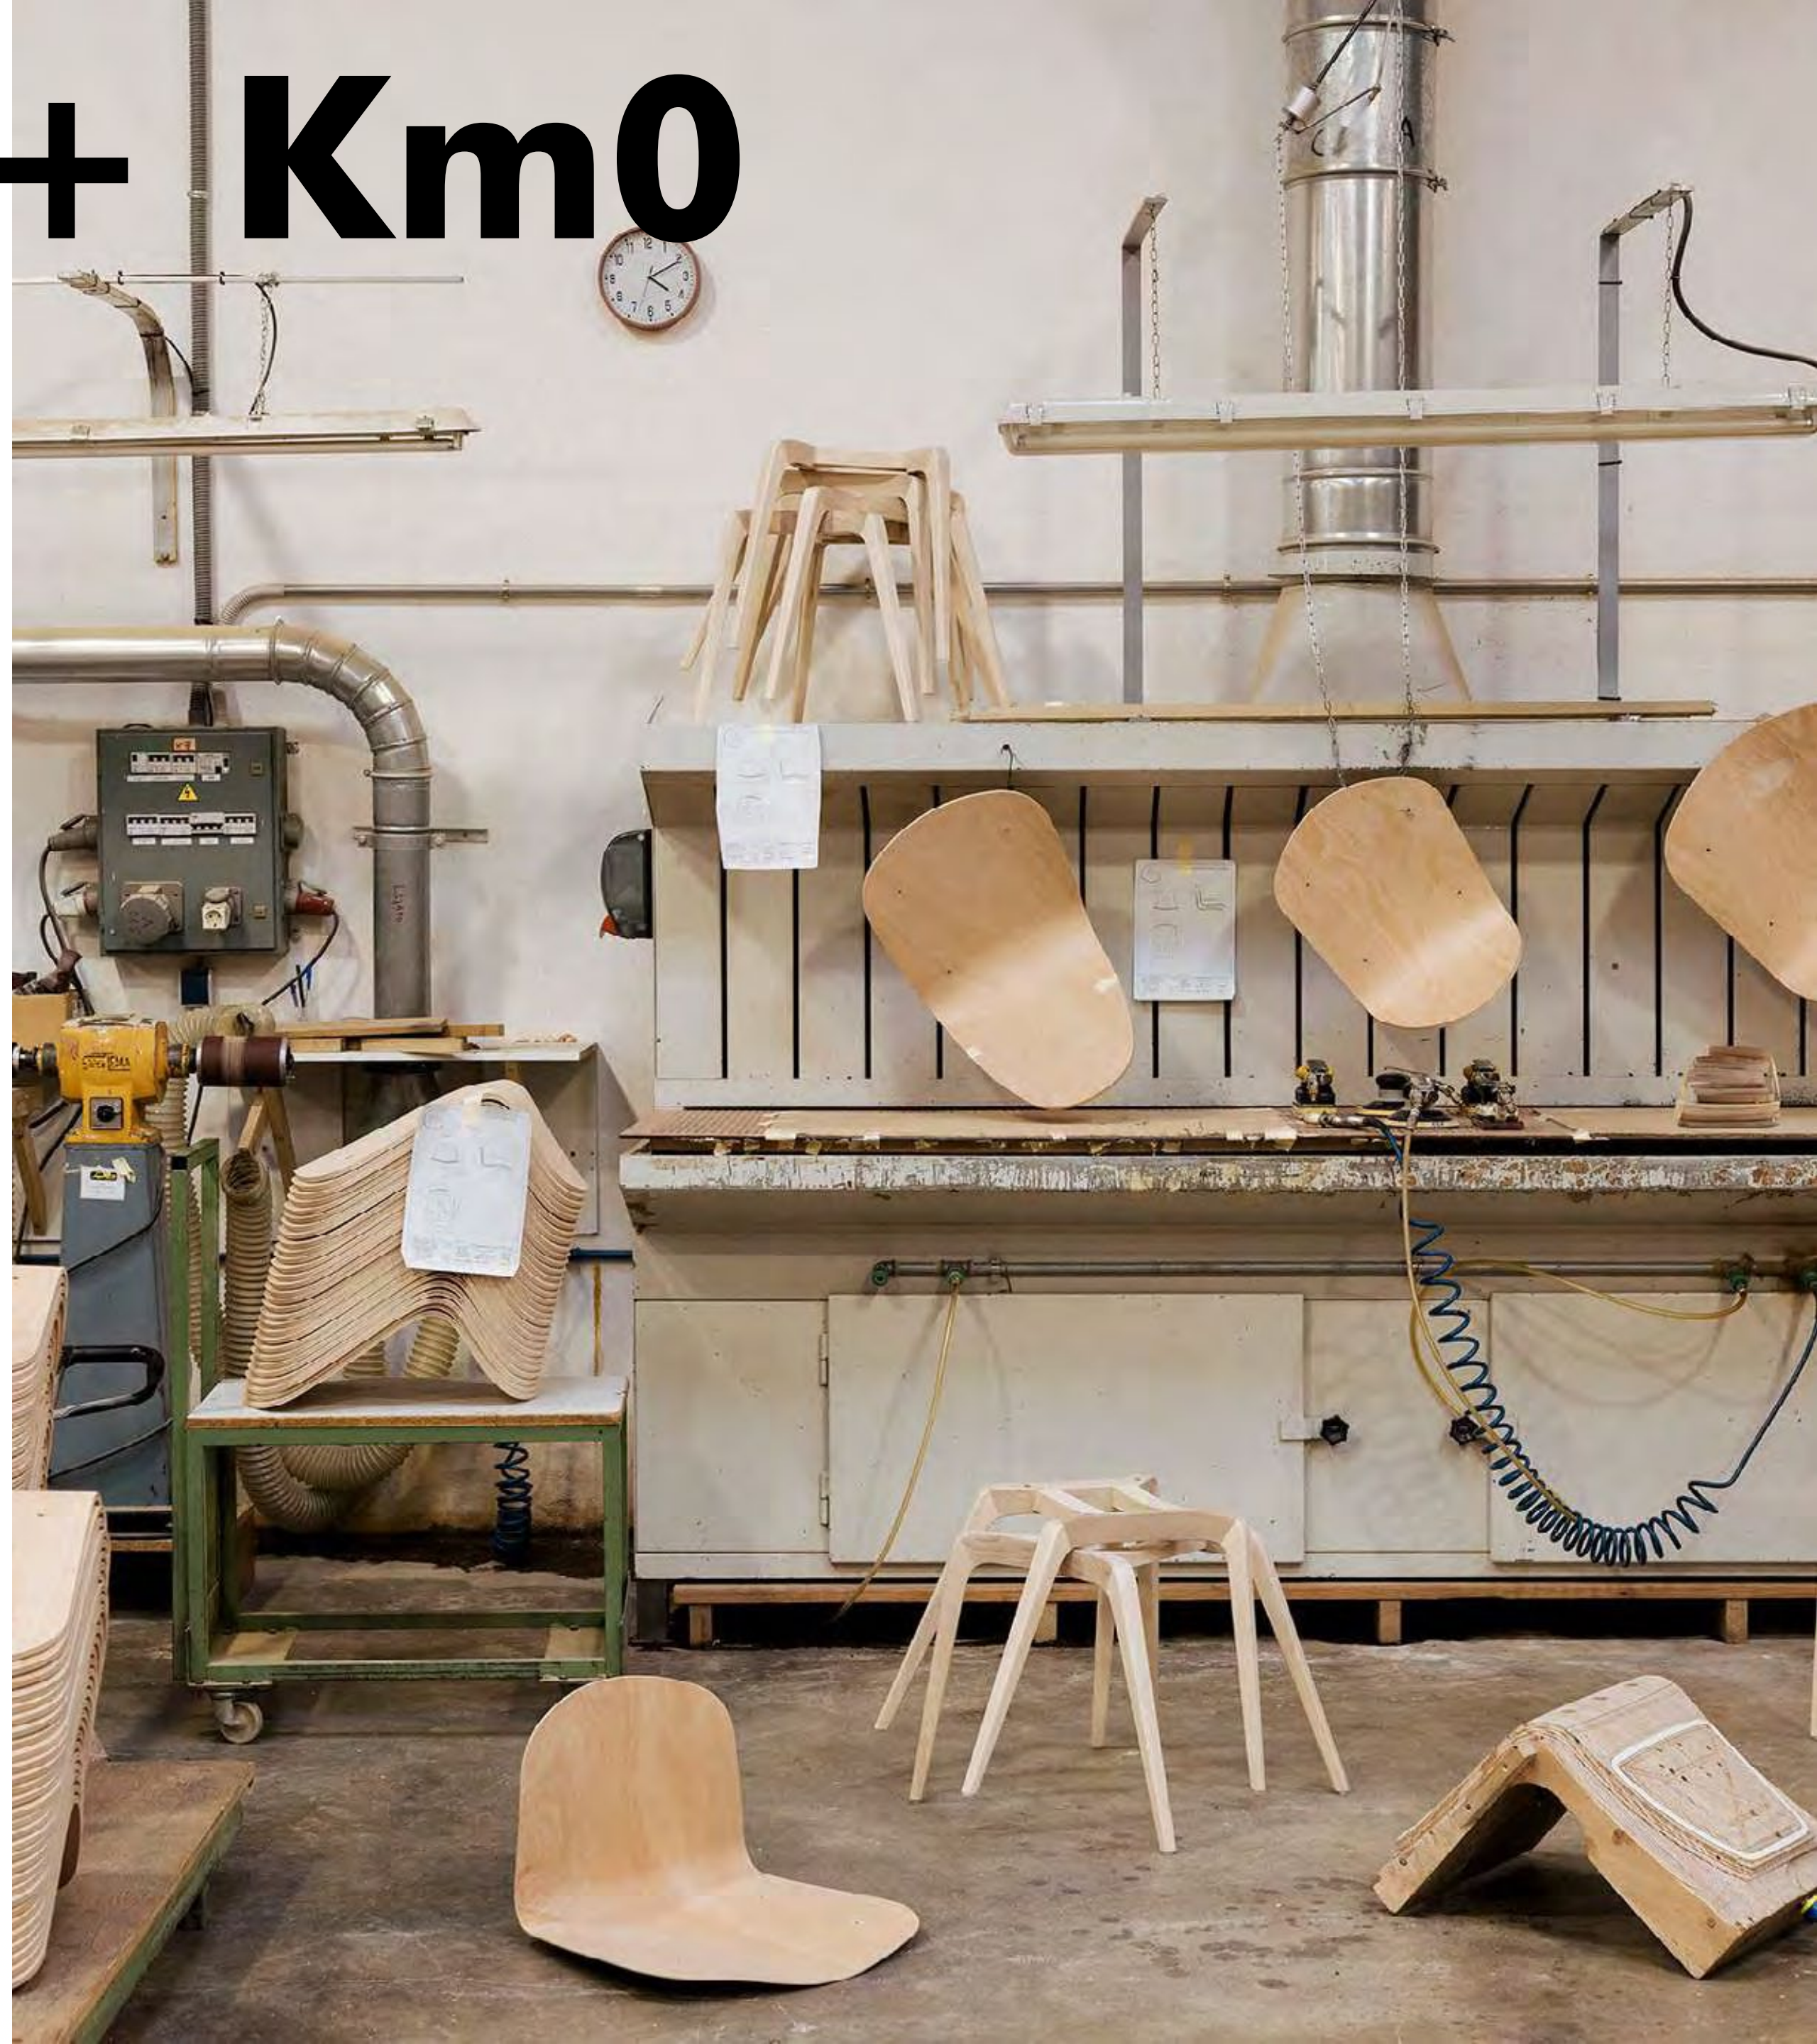

Design

Rather than ephemeral aesthetic trends, we want our mentality that stands out in each of our designs. From the moment they are conceived, our furniture is designed to transcend the balance between functionality and beauty. We want them to reflect values of honesty and sustainability; we want to create bonds between people and foster human connection; we want to reveal our history as we work to respond to the needs of contemporary clients and markets.

Raw materials + Km0

The journey begins in the Basque Country, in the beech and oak veneer selection warehouse where the material is carefully chosen according to criteria of sustainability, quality and beauty. Our designers look for in each piece of wood what a sculptor would look for in a block of marble: the potential to become, when moulded and chiselled, into what they have imagined and captured on paper; they look for the possibility of transforming the raw material into a contemporary product using an impeccable design.

Ecodesign^(5)

We work with sustainable materials to reduce our environmental impact by reducing the consumption of fossil materials, either by using recycled polypropylene or by including bio-based materials in order to minimise the consumption of virgin material.

ON PRESENTATION Technique

Today our production process comprises both craft and technological techniques. It requires skilled hands and trained eyes, but also modern machinery. We cherish our heritage and our origins while always seeking to innovate and evolve.

Traceability^(7)

At Ondarreta we have wood production, manufacturing and varnishing processes, as well as a steel handling plant. Thanks to this we can be flexible and deliver a customised end product resulting from a vertical traceability process. Our local production system allows us to have unique response times and high quality service standards.

Aia Family

Have fun, enjoy and combine... The ability to function on their own or in a group means that the Aia poufs form original and changing spaces, for relaxing or meeting. Their upholstery, with fine stitching detail and geometric surface, available in a wide range of colours.

[Go back to index](#)

Aia Family

Alo Family

A steel structure surrounding a varnished, upholstered or laminated wooden shell. Three different materials that meet and respect their space, leaving an air gap between them that gives the piece an air of lightness and an elegant and simple personality.

Go back to index

ONDARRITA PRESENTATION

Alo Family

Alo Outdoor Family

The new Alo Outdoor, maintains the familiar steel structure accompanied by steel slats that seem to float, giving a sense of lightness and elegance. Available in all our epoxy colours.

Alo Outdoor Family

Alo Outdoor Family

Ant Family

The Ant stools are characterised by their unique polypropylene seat, available in different colours, and their steel structure. A combination of resistant and robust materials that give the family a feeling of security and lightness.

Go back to index

Ant Family

Bai Family

Generous proportions and enveloping lines, multi-purpose pieces with a noble and warm appearance. Bai is a versatile family that, like the Basque meaning of its name, 'YES', allows you to create positive and warm atmospheres. A combination of classic and contemporary elements surrounds the Bai family.

Bai Family

Bai Family

Bob Family

Cosy and softly shaped, the Bob family is inspired by the tranquillity of nature and the Nordic world to create pleasant, calm, subtle yet contemporary spaces. It is accompanied by a wide variety of upholsteries that allow you to create exclusive combinations and achieve the warmth and comfort that distinguish the family.

ONDA RILETTA PRESENTATION

Clip Family

Don Family

The Don family exudes personality with an industrial but thoughtful style that creates different, clean, elegant and comfortable spaces. Pieces made from highly resistant phenolic materials, with a sheet metal structure and the backrest screws visible to finish off that touch of retro and original piece.

Ele Family

The ELE WALL collection of hangers has a very special curved design and woodwork, which reflects Ondarreta's way of working wood very well. They are versatile and functional. Their design allows for multiple configurations and for combining the pieces together and separately.

Go back to index

Ele Family

With four hangers that define its outline, ELE STAND is a floor-standing stand inspired by the verticality of ears of wheat. Its simple and carefully designed aesthetics perfectly camouflages its height and robust presence. It is also capable of bringing personality and dynamism to every room, thanks to the combination of materials that make up its structure.

ondarreta

Espai Family

[Go back to index](#)

The Espai collection is made up of separating panels that flow on the desk, moving closer, moving away, looking for a solution to a new way of understanding the individual or shared workspace. The simple movement or position leads us to a continuous redefinition of workspaces, exploring the infinite number of possibilities into which they can be divided.

Espai Family

Ginger Family

Ginger is a family of chairs, lounge and tables designed by Sebastian Herkner that allows the mind to imagine different scenarios depending on the point of view from which you look at it. This contemporary furniture collection is characterised by its welcoming, rounded shapes.

[Go back to index](#)

Ginger Family

Ginger Family

Ginger Family

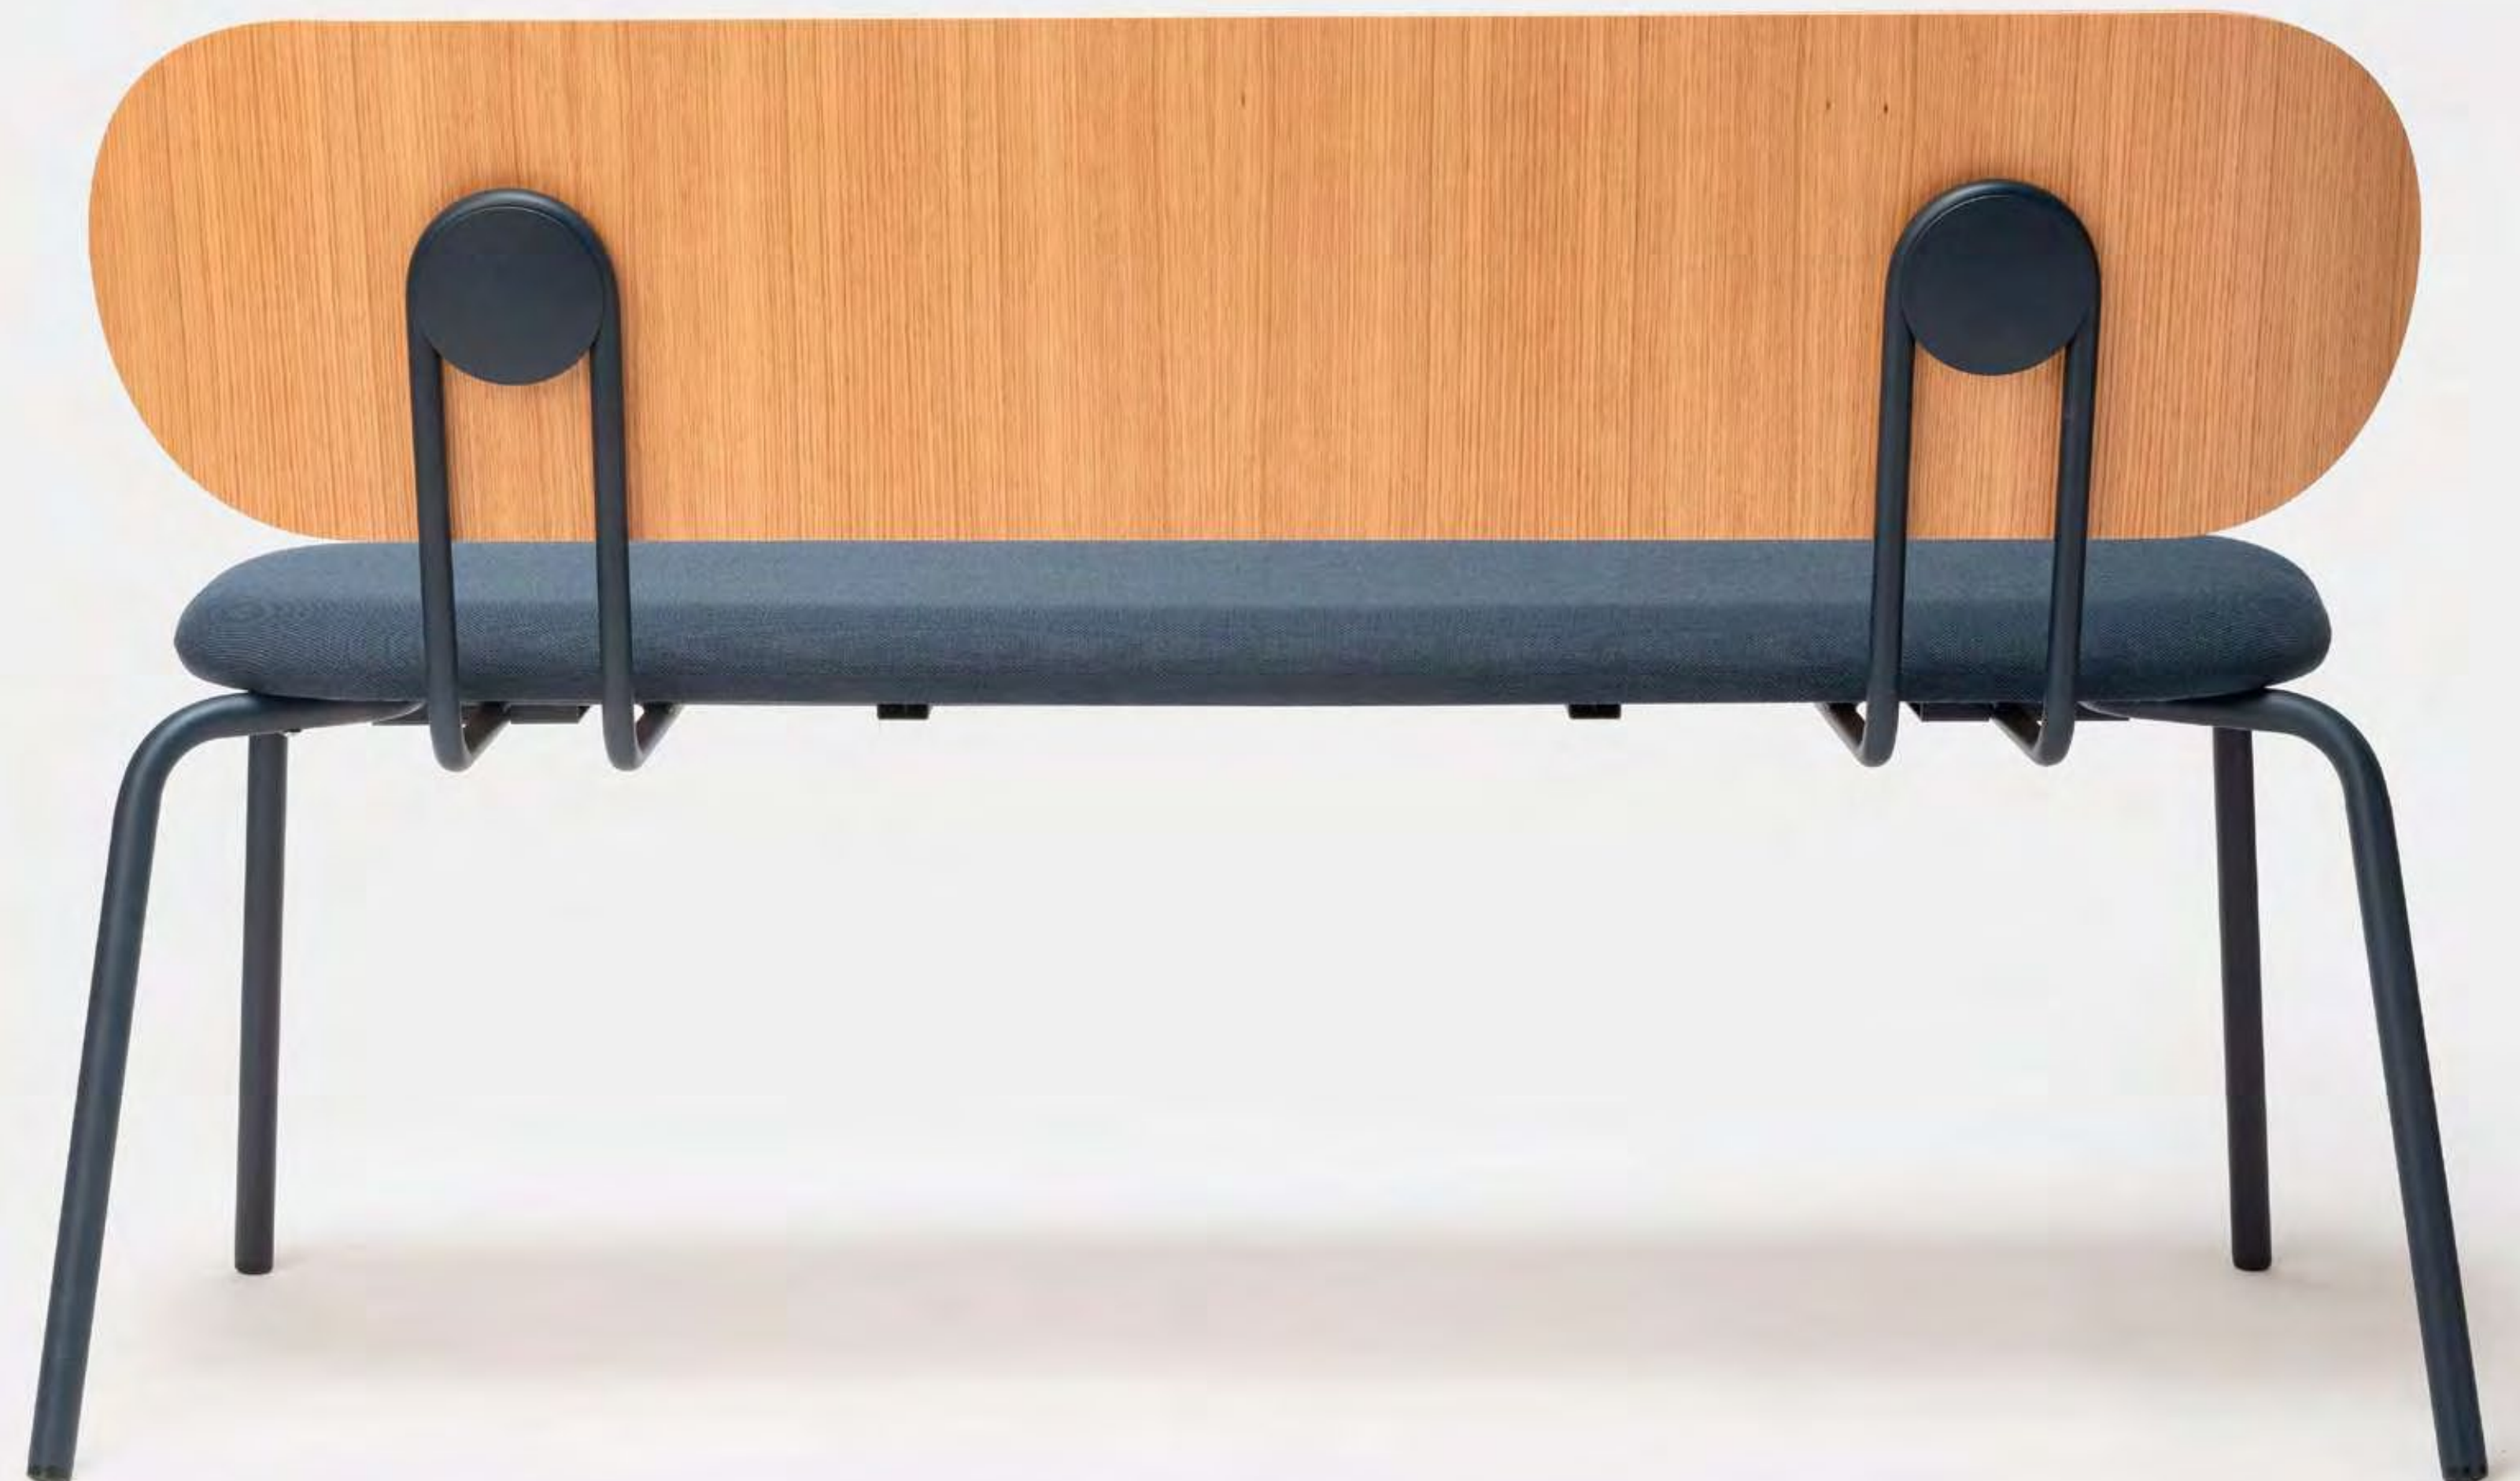

Hari Family

Hari is a seating collection made up of chairs, armchairs, stools and benches that takes as a reference the world of textile looms with a very industrial visual and the delicacy of the yarns to create a subtle and elegant collection.

[Go back to index](#)

Hari Family

Hari Family

Hari Family

Hari Family

Ika

IKA is a mobile and dynamic piece of design furniture. It is composed of an oak wood frame and seat and a sturdy leather strap that has a double function: in addition to serving as a backrest, it allows you to hang it over your shoulder and take it with you wherever you go.

[Go back to index](#)

Ika

Juno Family

H45 / H31 / H75

Go back to index

The Juno collection is characterised by its soft, rounded shapes that reinforce its character. With delicate, balanced and expressive proportions, this collection is conceived to blend and adapt to any environment in a friendly, integrated and honest way. The family is composed of side tables, fixed and extendable dining tables with tops available in different finishes and benches.

Juno Family

Juno Family

Lana Family

Two great allies; wood and steel; to equip multiple spaces, from a waiting room, a lounge or the lobby of any hotel. The wood version recovers the tradition with the technique of bending solid wood, creating soft contours, with rounded corners. In the steel version, the shape of the backrest plays with the volumes and intertwines with the structure, giving it a more particular appearance.

Lana Family

Mikado Family

Mikado, a family designed for big and small, in XS, normal and XL versions, with simple and functional shapes. Designed with an assembled birch plywood structure. An option that brings us back to the idea that the simplest forms create the most beautiful spaces.

Mikado Family

H40 / H45 / H75

Mikado Family

Ola Family

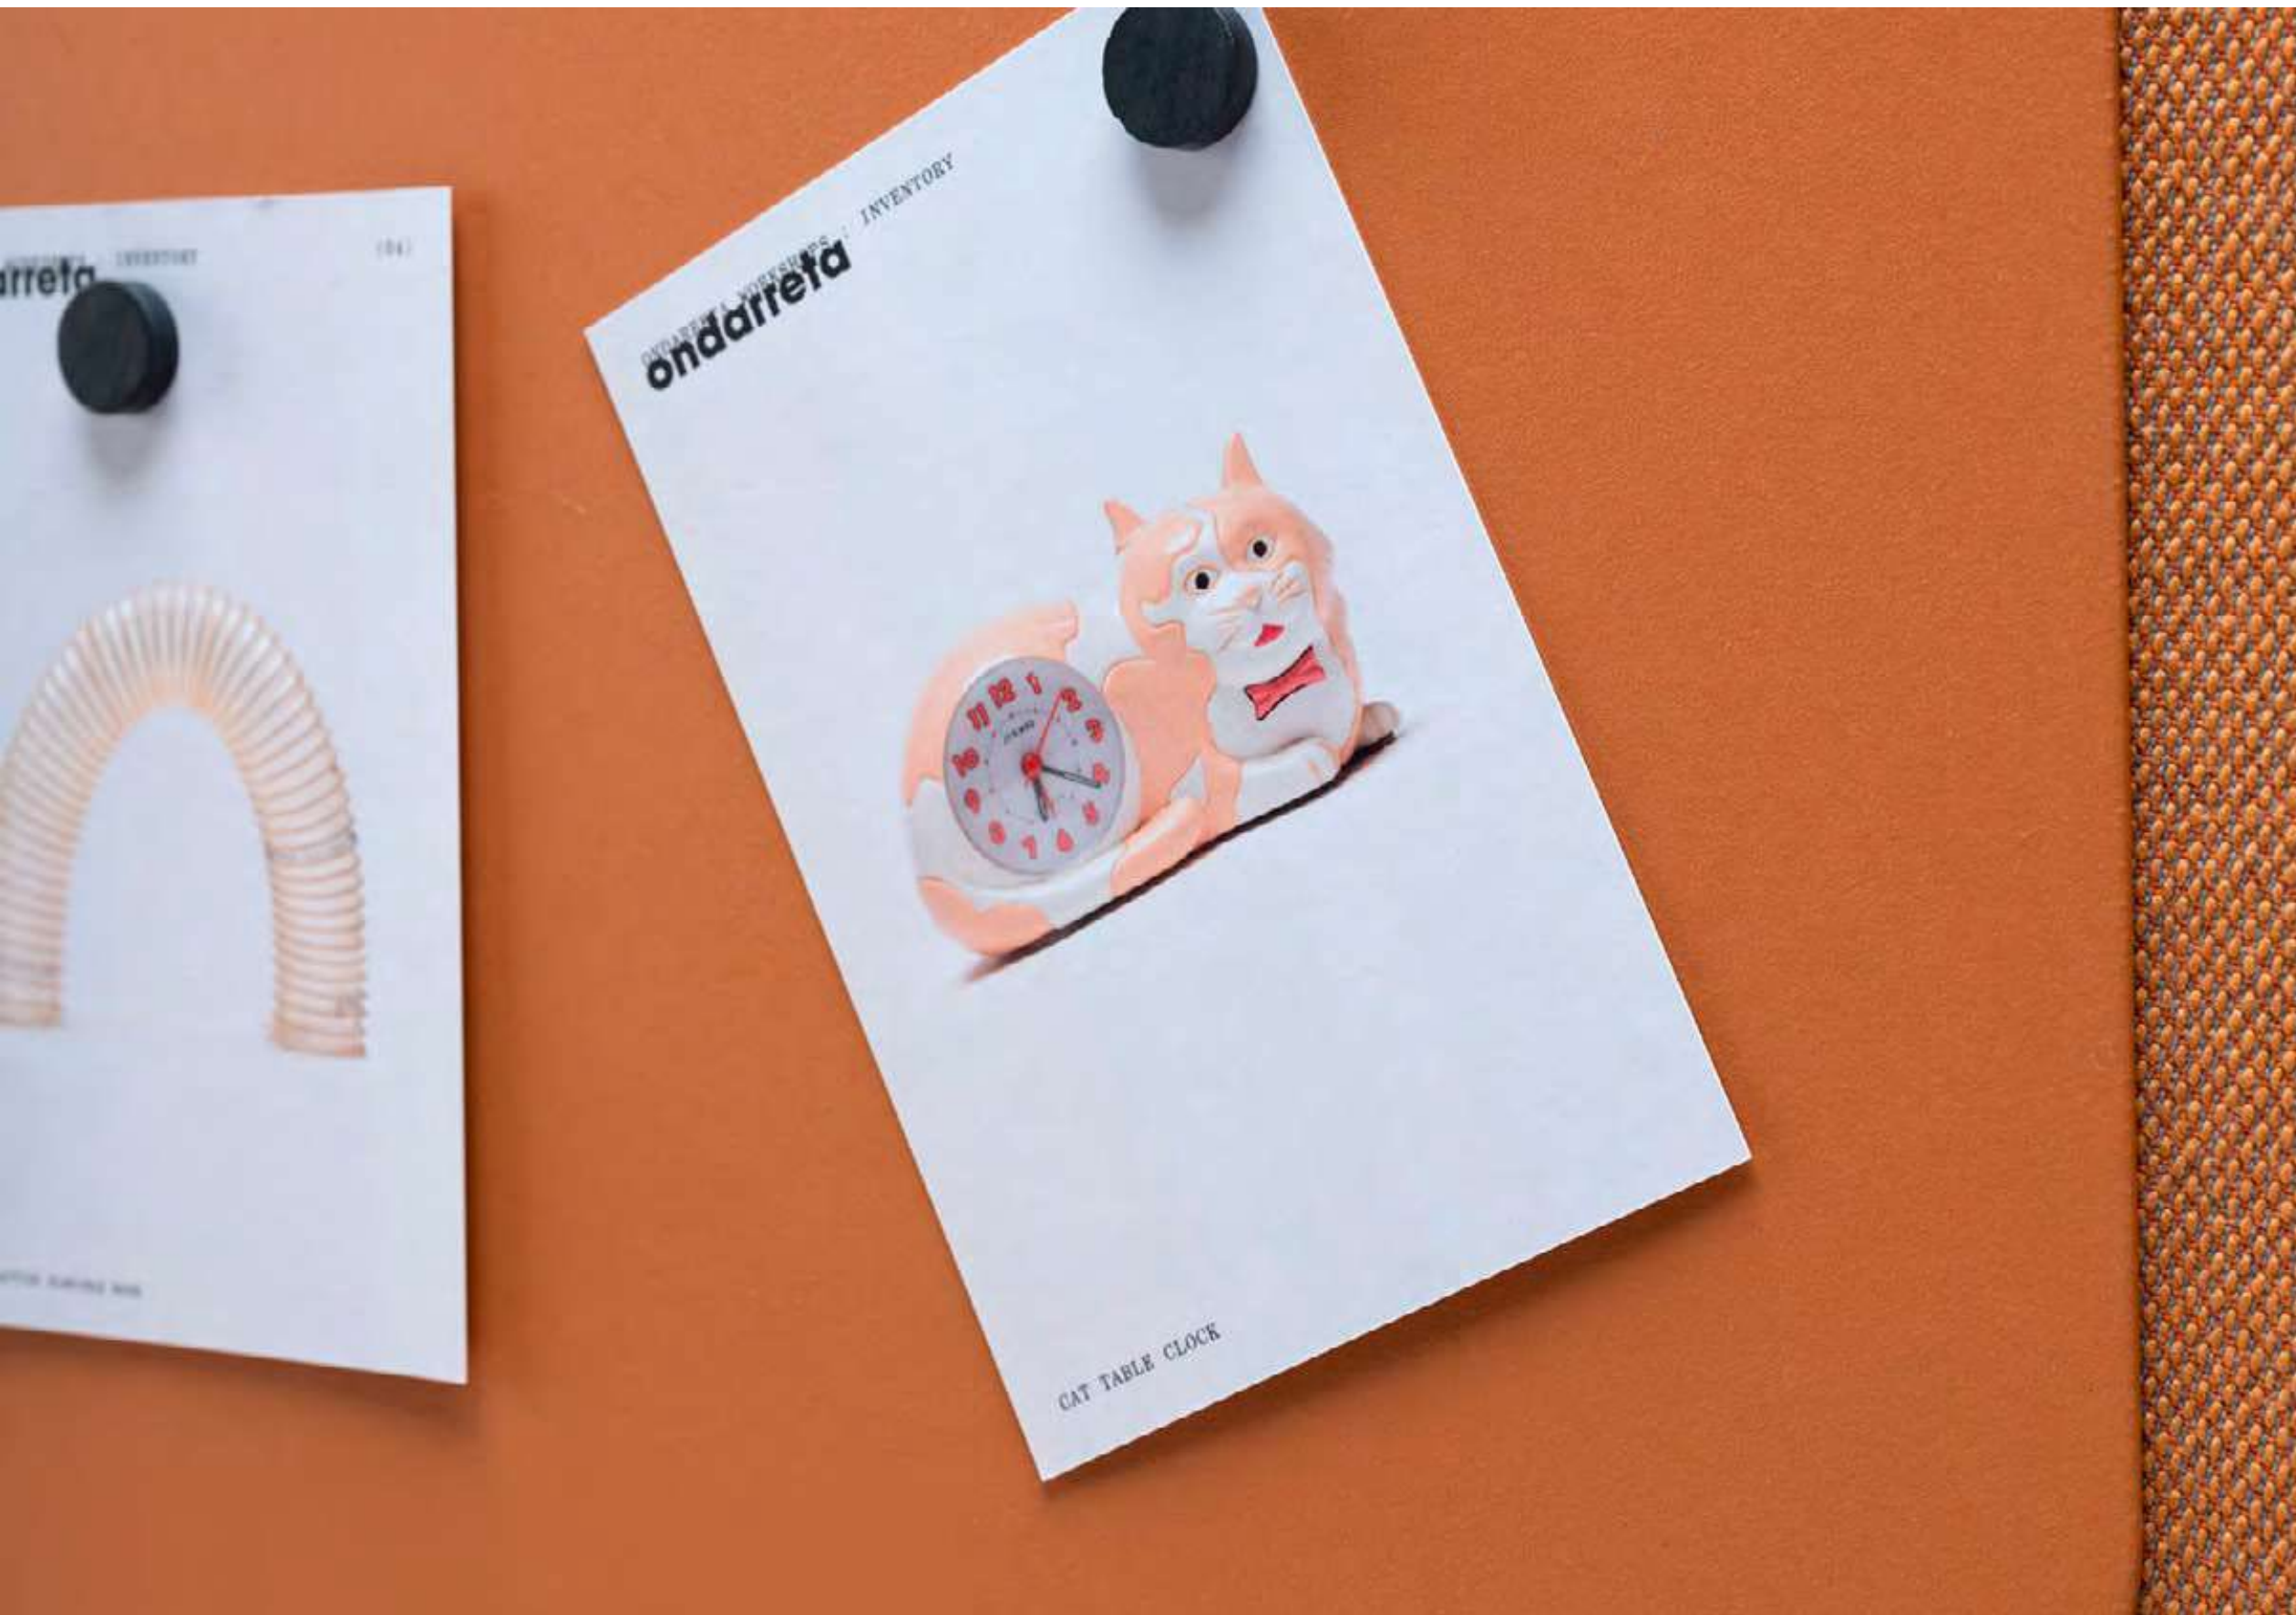

Inspired by the waves that rise from the Cantabrian Sea in the winters of San Sebastian. A design that allows spaces to be divided in a simple and flexible way, with the option of using each piece individually or joining several of them together from the base in a modular way. The best thing about Ola is that it has its own collection of accessories to personalise according to the needs of the space.

Ola Family

Sako Family

This new collection of tables is the result of a search for pure, soft shapes that enhance any space. The fabric that envelops the pedestal gives the piece a sensation of quality, great versatility and flexibility. A functional piece with infinite possibilities.

Go back to index

Sako Family

Silu Family

Fusion of traditional wood bending techniques and the know-how of traditional techniques with the most contemporary design. The Silu family in ash or oak, ready for a wide variety of functional environments.

Go back to index

Silu Family

Silu Family

Supra Family

A single-shell piece inspired in the construction principles of structural beams. A chair that stands out for its simplified lines, its comfort and its innovative finishes.

Supra Family

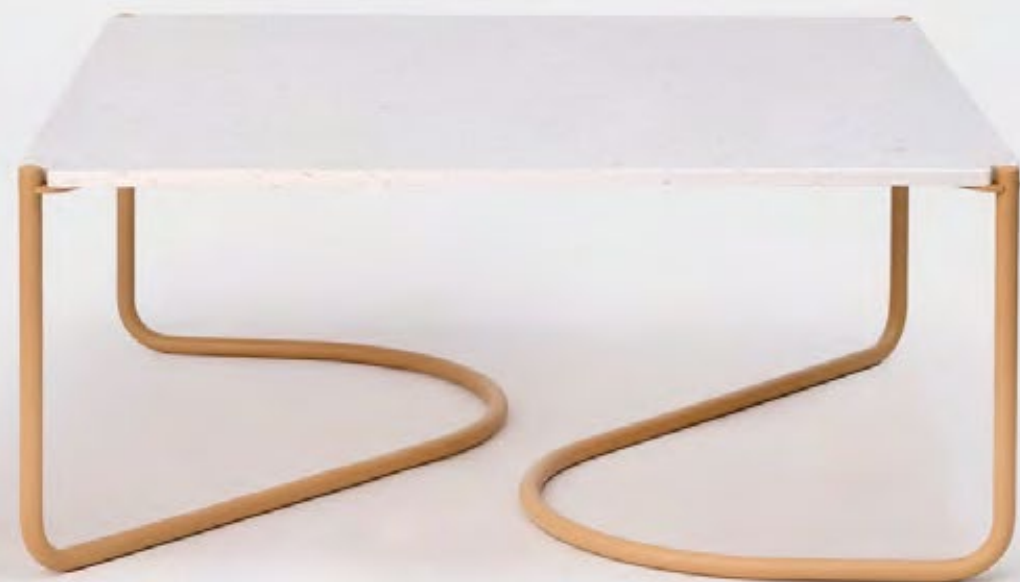

Supra Family

Uda Family

Uda tables, designed by Helena Rohner, are characterised by their organic, sinuous lines that trace a simple, sculptural pattern wherever they are placed. This design of sculptural lines is complemented by a selection of finishes that bring freshness and colour to the pieces. The material options for the tops of this table model include, in addition to the compact, the new 100% recycled PET finish.
